## 枚举范围

[a,b] 之间的数字

## 检验条件

是7的倍数,但不含7的数字

```
int main()
    int n;
    cin >> n;
    for( int i = 0; i < n; i++){
        int a,b;
        cin >> a >> b;
        int cnt = 0;
        for( int j = a; j <= b; j++){
             if(judge(j)){
                 cnt++;
        cout << cnt << endl;</pre>
    return 0;
```

```
bool judge(int num)
{
    bool re = true;
    if(num % 7 != 0)
        re = false;

while(num != 0){
        if(num % 10 == 7){
            re = false;;
        }
        num /= 10;
    }

return false;
}
```
